Music: GOTTSCHALK

Let each stand in his lot and place

Vow ev - 'ry care and trial to face, _____

With man - ly cour - age and good will

And en - dea - vor his place to fill.

Each one work for the common good,
Treating brothers just as he would
That they should treat him every day,
And never asking, "Does it pay?"

If all these thoughts be in our soul
Joined in one great harmonious whole,
Sin-fon-i-a surely will prove
An hallowed bond of brother love.
