- 10% of all sales of this lyre go to support Phi Mu Alpha Sinfonia Fraternity.
- All oak lyres are hand crafted individually from carefully selected Red Oak. The lyre measures approximately eighteen inches tall, twelve inches wide, and at least an inch thick. Each Oak Lyre comes with a free brass clock key for tuning. Other tuning wrenches available upon special request.
- The painted lyre will be individually hand painted by the same skilled artist who painted the Lyre for the National Headquarters.
- Keep the lyre out of extreme heat, cold, and moisture environments. Do not place lyre near heating or cooling vents. Do not allow the wood to get wet. If it gets wet, wipe clean with a clean dry soft cloth. Do not leave lyre in the car, especially on sunny or freezing days.
